*The gross horsepower of these engines was laboratory rated by the engine manufacturer in accordance with SAE J1940 or SAE J2723. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers will be significantly lower.

Z MASTER® PROFESSIONAL 6000 SERIES

COMFORTABLE RIDE

The deluxe suspension seat features thick cushions, large bolsters and 3-D isolation mounts that absorb bumps and vibrations to reduce operator fatigue.

TOUGH SPINDLE ASSEMBLIES

Toro's rugged spindle assemblies survive impacts that would destroy lesser spindles. A stout cast iron housing with a massive base absorbs impact loads and distributes them across a broader area of the deck shell.

SMOOTH, POWERFUL RESPONSE

The unitized pump and wheel motor uses proven commercial hydraulic components while eliminating hoses and other potential leak points. You'll get a smoother, faster response while enjoying an even more reliable machine.
